

Know Your Pulse

to Know Your Heart Rhythm **IN 4 STEPS**

It Could Save Your Life

①

Sit down for five minutes. Avoid consuming stimulants like caffeine or nicotine and grab a timer

②

Hold your hand out with your palm up while bending your elbow slightly

③

Place three fingers between the edge of your wrist and tendon

④

Count your pulse for 30 seconds and multiply by two to get your heart rate and BPM (beats per minute)

*If your heart rhythm (pulse) is irregular, repeat for 60 seconds and do not multiply
If your pulse was irregular or over 120 BPM, you should consult your doctor*

If your heart's not ticking like a clock, call the doc!
